57th Annual Production Sale

March 28, 2024

250 Yearling Bulls

200 Commercial Heifers

1:00 MDT at the Ranch • Sidney, MT

Welcome to the 5th Annual GDAR Production Sale

All of us here at Gartner-Denowh would like to welcome you to our 2024 production sale. We are very excited about this year's offering, and we hope you will take a look.

We would like to take this opportunity to thank all of our valued customers and friends who have supported us throughout the years. Without your continued support and faith in our program we wouldn't be in business today.

Once again we are offering 200 replacement heifers along with the bulls. They are a great set of heifers that will make excellent cows. The bulls look better than ever. We have some exciting new bloodlines this year, and top to bottom, this set of bulls is more uniform and stout than ever before.

The bulls have all passed a breeding soundness and fertility exam performed by Dr. Gary Schieber of Sidney, Montana prior to the sale. The bulls were fed a high roughage, moderate gain ration to ensure structural soundness and longevity. As in the past, we have tried to gather as much useful information as possible to help you in your bull buying decision. If you would like any additional data that isn't in the catalog please log onto our website or contact us and we will get it to you.

Please feel free to contact us at any time if you have any questions about the catalog, our cattle, or our program. The bulls and heifers can be inspected any time, just let us know and we will be happy to show you around.

Thank you for your interest in our program, we look forward to seeing you on sale day.

Don't forget our pre-sale supper at 6:00 on Wednesday evening.

Sincerely,

The Denowh's

Straight Out of the GDAR Program

Producing better cows generation after generation has been the goal of the GDAR program for 60 years. GDAR cows are functional, fertile, easy fleshing, moderate framed, feminine, and possess the genetics to produce profit at every stage of the beef industry. This is the chance to put some of these females to work on your operation.

Over half are out of GDAR AI sires with the remainder being out of GDAR bulls. All heifers were raised at GDAR, most on the commercial operation, with a few being out of registered cows. They have a similar genetic package to the bulls selling, and all of the maternal excellence GDAR is known for.

GDAR Forever Lady 4522
Dam of Lots 9-16

GDAR Forever Lady 4522 is the dam of GDAR Load Up 7104 who has done more to improve feet and disposition in our herd than any other sire. She really outdid herself with this set of embryo calves. Watch for more of her calves in future sales, as we plan to flush her extensively.

GDAR Justo 2711

Justo was our high selling bull in 2023 going to 9 Peaks Ranch in Oregon. His sire, Justified 914, is the best foot improver we are currently using, but we look for Justo to be even better. He is just flat built right from the ground up. Justo calves have been coming easy with lots of vigor. Justo is one of our most anticipated sire groups for 2024.

Bardolier 2363 was one of our sale toppers last year going to Whistling Winds Angus in Montana. We think he will be even better than his very popular sire, Bardolier 0239. He stands on excellent feet, and is hard to beat for eye-appeal. His first calves are coming light and look to be growing rapidly. We are very excited to have 2363 carry on our Bardolier lineage.

Clipper was our second high seller in 2023 going to Math Farms in Montana. He is another Justified 914 son that we decided to move forward with because of his structure and phenotype. We really love this bulls style and look for him to leave outstanding females. His first calves are on the ground and they look outstanding.
