*59<sup>th</sup> Annual Production Sale*

**March 26, 2026**

**265 Yearling Bulls**

**300 Commercial Heifers**

**1:00 MDT at the Ranch • Sidney, MT**

Welcome to the 2026 GDAR production sale.

Here at GDAR we are passionate about making better cows.

The GDAR breeding program emphasizes form & function - focusing on real-world, relevant traits. Cows have to cover country and bulls have to cover cows, otherwise the rest really doesn't matter.

These bulls are built to work in the pasture and on paper.

It's easy to breed for good numbers these days, it's very hard to breed good cattle with good numbers. We believe that our dedication, persistence, and consistency to our breeding program over the last 7 decades has bred good cattle with good numbers.

The bulls and heifers are right here at the ranch, stop and see them anytime.

Please reach out with any questions!

We look forward to seeing you on March 26<sup>th</sup>. -The Denowhs

## Welcome to the Annual Gartner-Denowh Angus Ranch Bull Sale.

There are many ways to chase progress in the Angus business. At GDAR, progress has always been defined by one thing—**making better cows**. Not by chasing numbers or trends, but by focusing on form, function, and cattle that work in the real world. The belief has always been simple: if you build the right kind of cow, the numbers will follow.

It's hard for me to think about GDAR without reflecting on Russ Denowh and the foundation he built—intentionally, patiently, and with a long view in mind. From the beginning, the goal was to create females that could survive and thrive in the eastern Montana environment. Maternal strength, fertility, longevity, and functionality were never negotiable. That philosophy didn't just build a herd—it built a reputation recognized across the country and around the world.

The Angus breed has evolved considerably since those early years. Today's seedstock industry is shaped by EPDs, genomics, and data-driven decision making. While those tools are valuable, they are just that—tools. At GDAR, numbers have always been the **result**, not the method. Breeding cattle with good numbers is easy. Breeding good cattle that also post strong numbers takes discipline, consistency, and a clear understanding of environment and purpose.

The cow herd that Chad and Mick manage today reflects that mindset. Their cattle are built to calve, rebreed, and raise stout calves year after year. Sire selection is intentional, guided by experience, intuition, and a commitment to minimizing risk for their customers. Whether your focus is maternal strength, calving ease, or carcass merit, the genetics behind this year's offering are designed to work for a wide range of commercial programs.

This year's sale offering speaks for itself—**265 stout bulls**, averaging **+93 \$M**, placing them in the **top 8% of the breed**. That level of consistency doesn't happen by accident. It's the result of decades of disciplined breeding and a clear focus on the kind of cattle that move the beef industry forward.

As you evaluate this year's offering, I encourage you to study the cattle, ask questions, and reach out if I can be of assistance. Whether by phone, text, or email, I'm always glad to visit about the GDAR program and help you find bulls that fit your operation.

Best Regards,

*Ron Frye*

# *Straight out of the GDAR Program!*

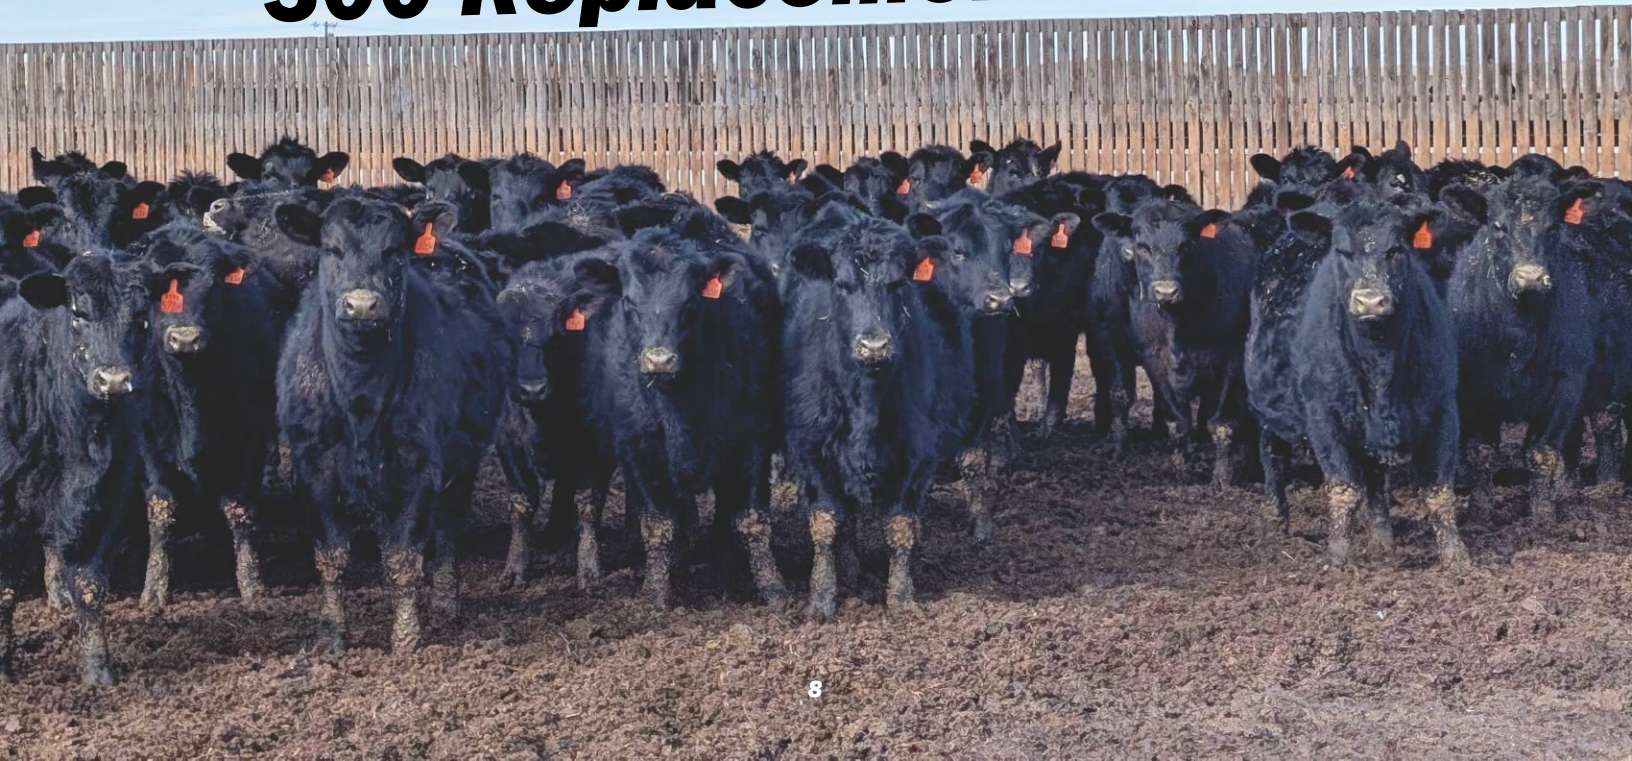

Producing better cows generation after generation has been the goal of the GDAR program for nearly 70 years. GDAR cows are functional, fertile, easy fleshing, moderate framed, feminine, and possess the genetics to produce profit at every stage of the beef industry. This is the chance to put some of these females to work on your operation.

Over half are out of GDAR AI sires with the remainder being out of GDAR bulls. All heifers were raised at GDAR, most on the commercial operation, with a few being out of registered cows. They have a similar genetic package to the bulls selling, and all of the maternal excellence GDAR is known for.

There will be a large group selling out of the registered cows with papers available. Check the website for more details!

Videos and supplement sheet will be available on our website prior to the sale or stop by anytime to see them!

# Meet The Crew

We would like to offer a special thanks to the crew here at GDAR and their families for all of the hard work they put in. The ranch wouldn't run without them.

SRS Jericho 9204M

Reg. 21052538

## SRS Jericho 9204M

Jericho was purchased with Arntzen Angus Ranch as the top seller out of the 2025 Skinner Seedstock sale. We are very excited about Jericho, he has the phenotype, foot structure, and disposition that we are always looking for in an outcross herdsire. Jericho was one of the heaviest used bulls here at GDAR in 2025 and look for a large sire group of Jericho sons in 2027.

Math Ultra 164

## Math Ultra 164

Ultra is a calving ease Testament son we added to the roster in 2025 coming from the Math's in Malta Montana. Ultra has an incredible look to him and a great set of numbers to match. The first calves have been coming easy with lots of vigor and look to be growing well. Watch for a nice set of sons to sell in our 60th annual sale next March.

## GDAR Bardolier 4572

Bardolier 4572 is a calving ease bull we expect big things out of. 4572 is a sleep all night heifer bull that ranks in the top 1% of the breed for \$M and top 10% for \$C. He stems from one of the strongest cow families on the ranch and ranks in the top 4% of the breed for longevity. Here is a bull to watch. Sons will sell in 2027!
